**Inteva Products, LLC Launches With More Than 90
Years of Tradition and Expertise**
*Inteva, formerly Delphi Interiors and Closures, provides customers with
innovative interior and closure solutions*

TROY, Mich. – March 1, 2008 marks the launch of Inteva Products, LLC, formerly Delphi Interiors and Closures. Inteva is an engineering, manufacturing and supply powerhouse serving customers around the world with innovative interior and closure solutions for vehicles ranging from entry level compacts and luxury sedans to pick-ups and massive commercial vehicles. With 17 facilities on three continents Inteva brings more than 90 years of product experience and expertise to customers while delivering flawless execution and superior engineering.

“This is a very exciting day as we embark on a journey with a new name, a new philosophy and a new professional path,” said Lon Offenbacher, Inteva president & CEO. “I believe we have the best team in the industry, allowing us to continue to provide our customers with the high level of service and creativity they have come to expect, while expanding our reach and capabilities with our new independent structure.”

Inteva engineers, technical centers and manufacturing sites located around the world ensure that solutions are designed to the customer’s exact specifications, on time and on budget. With the foundation of expertise and dedication of experienced Inteva team members, customers get the best in innovative solutions and insightful problem-solving.

Inteva’s full line of capabilities include:

Instrument Panels and Consoles – Inteva boasts extensive experience in design innovation and product integration in instrument panels, consoles, and interior trim. In today’s competitive marketplace, interior quality and aesthetics are just as important as a stunning exterior. Consumers demand a sensational product experience when it comes to the interior of their vehicle. Inteva understands and delivers.

Cockpits – Inteva designs, assembles and sequences cockpits for some of the world’s best-known automotive manufacturers. Offering full design, packaging and development services backed by expertise, Inteva delivers timely solutions to any manufacturing or assembly combination challenge.

Door Module and Window Lift Systems – Inteva is a pioneer in the automotive industry in door module technology, providing a competitive advantage with modular systems that can greatly reduce assembly time, material, mass, and cost while improving quality.

Closure Systems – Quality vehicle manufacturers around the world rely on Inteva for latches, strikers and actuators. Inteva products are designed to maximize value, performance, and reliability.

Advanced Development – Whatever product challenges vehicle manufacturers face, Inteva can tackle them with a combined knowledge of industry trends and a passionate, highly skilled

workforce and innovative creative solutions. Inteva offers a full complement of in-house development, prototyping, materials, processing, and testing capabilities.
